

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS ESG Akkumula

Share class: LC, ISIN: DE0008474024, Security code: 847402, Currency: EUR

The management company is DWS Investment GmbH, a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is managed in reference to a benchmark. The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (MSCI World TR Net). To achieve this, the fund invests mainly in equities of solidly positioned and growth-oriented domestic and foreign companies that, based on profit expectations or the exploitation of short-term market situations, offer the prospect of a good performance. When selecting investments, environmental and social aspects and the principles of good corporate governance (ESG aspects) are taken into consideration alongside the financial performance. Issuers that generate their revenues from activities related to power generation or other use of nuclear energy and natural gas as well as from the extraction of uranium or natural gas may be acquired for the investment fund. In this context, the fund management is responsible for selecting the individual investments. The majority of the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use its discretion to invest in securities and sectors that are not included in the benchmark in order to take advantages of specific investment

opportunities. It is expected that the portfolio will not necessarily have a similar weighting to the benchmark. The positioning of the fund can deviate substantially from the benchmark (e.g., by holding positions that are not contained in the benchmark, as well as by a substantial underweighting or overweighting). The actual leeway in this respect is normally relatively high. In general, a deviation reflects the fund manager's assessment of the particular market situation. This may lead to a more defensive and narrower positioning or to a more active and broader positioning relative to the benchmark. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis. The Company may, however, suspend or restrict the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk

profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 5 because its share price fluctuates comparatively strongly and the likelihood of both losses and gains is therefore relatively high.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00 %
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	1.45 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor. The ongoing charges figure is based on expenses for the fiscal year ending 30.09.2021. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the LC share class of DWS ESG Akkumula were deducted during the calculation. Entry and exit charges were not taken into account. The LC share class of DWS ESG Akkumula was launched in 1961.
