

Key Investor Information Document

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

COMGEST GROWTH EUROPE S

EUR Acc Class (ISIN IE00B4ZJ4634)

A sub-fund of Comgest Growth plc

Objectives and investment policy

The objective of the Fund is to increase the value of the Fund (capital appreciation) over the long term. The Fund intends to achieve this objective through investment in a portfolio of Shariah compliant high-quality, long-term growth companies. The Fund will invest at least two-thirds of its assets in securities issued by Shariah compliant companies that have their headquarters in, or principally carry out their activities in European Union member states, the UK and Switzerland.

The Fund may invest in other Shariah compliant sub-funds of Comgest Growth plc.

The Fund is actively managed. This means that the Fund manager applies a detailed fundamental analysis in order to selectively pick companies in a discretionary manner. The Fund is not managed relative to a benchmark index.

There may be occasions when investments in companies which were originally Shariah compliant become non-Shariah compliant. These positions will be sold by the Fund in accordance with the Shariah investment guidelines as set out by the Shariah Supervisory Board.

Income earned by the Fund is fully reinvested.

Due to the long-term objective of the Fund, the Fund may not be appropriate for investors who plan to invest for less than 5 years.

Shares in the Fund trade every day that is a business day in Dublin. You can place an order to buy or sell shares on any business day.

The base currency of the Fund is EUR.

Risk and reward profile

The risk and reward indicator is calculated on the basis of the share class volatility (the ups and downs in its value) over the prior 5 year period.

The risk and reward indicator :

- is based on historical data and may not be a reliable indication for the future;
- is not guaranteed and may change over time.

The lowest category does not mean that a share class is risk free.

Your initial investment is not guaranteed.

The share class category reflects the following factors :

- Higher volatility can result from investments in shares as their value may fluctuate more than other financial instruments, such as bonds.
- The Fund may invest in shares priced in currencies other than the currency of the share class. This may result in the value of the share class increasing or decreasing due to changes in foreign exchange rates.

Risks for this Fund which are not taken into account in the indicator include:

Liquidity risk: The risk that some securities held by the Fund may be difficult or impossible to sell at the desired time and price.

Counterparty risk: The Fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations.

A more detailed description of risks can be found in the 'Risk Factors' section of the prospectus.
